Langston and was paid upon his, said Langston's, account. Therefore petitioner prays payment of said 20*l.* 16*s.* 0*d.* without delay, for the relief of him and his poor family; he being a prisoner.	*Ibid*, p. 257.

(3) The fabricator will teach his wife, being an Englishwoman, the art, and bring up his child, being born in England, in the exercise of it and also forthwith teach the art to the other persons mentioned in the patent, they being both his Majesty's subjects. (4) The patentees will submit to a clause of revocation if cause be shown on report of the Customs Commissioners and at the end of seven years they will take three of the King's subjects [as] apprentices and three more at the end of 10 years and will teach them the whole art so as to make them perfect masters thereof, so that the first three apprenticeships will terminate with the patent and they will have liberty and ability to instruct others. (5) If at any time during the patent any of the King's subjects or foreigners (except those instructed in this art by the said patentees) shall make it appear on a hearing before the King or the Treasury Lords that they are masters of the whole art of making and dressing the said Luststrings, Ranforces and Alamodes and shall produce a piece of the said silks by them dressed to the same perfection with that of the patentees, then the said patentees shall always be ready to take in and employ such persons on such terms as the King shall think fit after a hearing.	*Ibid*, pp. 383–4.

the Revenue in Ireland. Please see that they give as good security for their trust as was given by Mr. Price.

Appending: said royal letter, dated Whitehall, June 6, to Richard, Earl of Tyrconnell, Lord Deputy of Ireland, for letters patent to be passed under the great seal to constitute said Bond and Doe as Receivers of the said Revenue *loco* John Price: it appearing from the account of the said revenue to Lady day last (as examined by the Deputy Clerk of the Parcels in Ireland) that the King owes thereon 16,296*l.* 10*s.* 2⅝*d.* to said Price; which sum the said Bond and Doe propose to forthwith advance and pay to Price on condition of having the said office of Receiver and 6 *per cent. per an.* interest on said advance, to which proposal the King is pleased to condescend. They are therefore hereby to be so appointed Receivers of said Revenue, great or small, certain or casual, "whether the same belonged to us [as private revenue] before our access to the Crown of England or descended, accrued or came unto us by the demise of our late royal brother King Charles the Second of blessed memory or by any other ways or means whatsoever": they to receive and issue all the revenue and to account at least once yearly to the Commissioners for taking the Accounts of the said Revenue; particularly distinguishing therein the revenue which belonged to the King before his access: they to observe the instructions of the Chief Governors of Ireland or the Treasury Lords, England: with power to deduct 6*d.* per £ on all payments in Ireland except where particular order to the contrary has been given; and also to receive all other fees payable heretofore to the Vice-Treasurer or Receiver General of Ireland: for all which deductions and fees they are to be accomptable to the King: they to have a yearly sum of 1,000*l.* for salary as previously allowed to said Price: their advance money as above with 6 *per cent.* is to be secured on and repaid out of the said deduction of 6*d.* per £, which deduction is hereby to be granted them till such repayment be complete and they to retain said office till then: but if the said fund be insufficient to repay the principal money of said advance, or if it be more to the King's service, then such advance money shall and may be satisfied out of any the King's treasure in Ireland. Further, the said Bond and Doe have agreed with the King to return or remit from Ireland at 8 *per cent.* what moneys of the said revenue are to be remitted and they are to be thereto obliged in the patent as herein at 8 *per cent.* allowance. Further, "the said John Price for the sum of 8,000*l.* (part of the moneys due to him as above) which came to him by mesne assignments or otherwise from Roger, late Earl of Orrery, deceased, hath an additional or collateral security upon certain quit rents in that our kingdom [of Ireland] amounting to 5,000*l.* *per an.*, that is to say the said quit rents are at present applicable to the payment of so much as remains due of the 21,000*l.* which was appropriated to be paid thereout" to Robert, Earl of Sunderland, whereby the said 8,000*l.* is to be repaid out of said quit rents if it be not repaid out of the defalcation of 6*d.* per £ before the said 21,000*l.* be fully satisfied; this same collateral or additional security (from and after the time of the satisfaction of said 21,000*l.*

June 6.	The Treasury Lords to the Lord Deputy of Ireland to issue a commission to enquire of the King's title to premises as follow, and in case the return thereof establish the King's title then to pass under the great seal of Ireland a grant of said premises to Richard Brett and his heirs for ever, viz. of all the lands etc. as below of the town and lands of Coletremer and Merrioll [Merrywell] and the nine acres of Knockmark in co. Meath, containing 168 acres 32 perches, under the rents and services now payable thereout: all by reason that said Brett has recently petitioned the King shewing that his father, Walter Brett, was seized in fee of the town and lands as above and in 1634, Oct. 24, conveyed same to Richard Barry of Dublin, alderman, *et al.* as feoffees for the use of John Brett, eldest son and Cisly, wife to said John, for their lives and thereafter to the heirs male of said John, with remainders to Michael, William, Thomas and Richard (the petitioner herein), being respectively second, third, fourth and fifth sons of said Walter: that said Walter died in 1647: that by the Act of Settlement said estate was vested in the King as seized and sequestered and was decreed to said John and Cisly by the Commissioners for Adjudication of Innocents, which Commissioners declared that they and the said Walter were Innocent Papists and loyal inhabitants of the city of Dublin: further that petitioner being at the time of said decree in France (whether he had followed the late and present King in their banishment, he having gone there in 1645 and continued there or in foreign parts until the said Court of Claims was over) and having only a remote remainder neglected to put in his claim whereby his remainder became vested in Charles II by the Act of Settlement and is now in the King's dispose: that the said Cisly is still alive, but that petitioner is heir to said Walter by the death of the other issue male of said Walter: further that he, petitioner, has been a great sufferer by those distracted times and for many years past has been supported by the charity of John Horish, then his cousin germain: wherefore petitioner prayed a grant to said Horish of said remainder in trust for petitioner during his [petitioner's] life and thereafter to said Horish and his heirs or to petitioner and his hoirs: which said petition was referred to the Lord Deputy of Ireland 1687–8, Mar. 6, *supra*, p. 1799, who referred same to the Attorney General, Ireland, who reported confirming the statements as above and advising that his remainder under the above deed now vests in the King by reason the said Richard was not himself declared an Innocent; and advising the grant of petitioner's prayer by reason that under the present remainder in the Crown the rents of the premises will only accrue to the King from the death of Cisly to the death of said Richard, whereas under the proposed new grant the rent now payable thereout may be fixed on petitioner and his heirs [for ever]: which report of the Attorney General was sent by the Lord Deputy Mar. 28 last to the Treasury Lords, England, and by them agreed to.	*Out Letters* (*Ireland*) V, pp. 116–8.

June 13.	Treasury reference to the Attorney General of the petition of Bernard (Barnard) Howard, shewing that James I in the 20th year of his reign granted the manor, rectory and farms of Speen in the Preceptory of Samford [Sandford] to William, Visct. Wallingford, and Eliz. his lady and their heirs, with remainder to the heirs of Sir Francis Knowles, kt., father of said William: all at the rent of 68*l.* 19*s.* 2*d. per an.*: that all the said parties are dead without issue, whereby the premises revert to the King: therefore petitioner prays a grant thereof to him and his heirs at said rent.	*Reference Book* V, p. 273.
	Same to Bartholomew Fillingham *et al.* of the petition of Sir Stephen Fox to the King, shewing that some years since he lent money to Sir Henry Brabant of Newcastle, since deceased, to assist him in draining and carrying on a coal work undertaken by him; for which there is now due to petitioner 400*l.* from the estate of said Sir Henry; that some persons employed by said Brabant to manage said coal work have since his death so absolutely possessed themselves thereof that they have refused to accompt for the profits to Brabant's widow or son; further that a writ is issued out of the Exchequer to seize the said coal work for an Excise debt due to the King from said Brabant at his death: therefore petitioner prays for the benefit of the said Exchequer process to the extent of his own debt as above.	*Ibid.*
June 14.	Royal warrant to the Clerk of the Signet for a privy seal to discharge the fine of 1,000*l.* set in the King's Bench in Trinity term *anno.* 36, Car. II, on Isaac Symball, late of St. Martin's in the Fields, Middlesex, yeoman, for several trespasses, contempts and misbehaviours: whereupon extents and inquisitions were had and several houses, lands etc. belonging to him have been seized into the King's hands and several sums of money levied to the amount of 150*l.* The present grant is in consideration of the further sum of 350*l.* paid into the Exchequer May 17 last by Thomas Stratford, gent. The said houses, lands etc. of the said Symball are hereby released and discharged from all further liability to the King, and Symball and his sureties are hereby released from all liability on their bonds. Further,	*King's Warrant Book* XIII, pp. 8–9.

June 14.	Henry Guy to the Customs Commissioners to send an officer to the lodgings of Sieur C. de Lente, Envoy Extraordinary from the King of Denmark, to visit his goods in order to their transport to Holland. *Appending:* (*a*) said Lente's undated letter to the Treasury desiring as above: (*b*) schedule of his baggage (including two chariots and one caleche).	*Out Letters (General)* XI, p. 390.
	Same to same, enclosing a memorial presented to the Treasury by the Agents for the Clothiers against Thomas Row. Take care that he give security for his good behaviour as therein desired.	*Ibid*, p. 391.
	Same to the Attorney General to report on the enclosed representation [missing] of Mr. Ange's concerning the city's imposing fines and bringing actions against those who sell wine in the city without being freemen thereof, although they be licensed so to do by the Wine Licences Commissioners; which action of the city tends to the ruin of that branch of the revenue.	*Ibid.*
	Same to Mr. Pepy's to report on the enclosed report made by the Customs Commissioners on the memorial of the French Ambassador concerning five French vessels which he complains to have been illtreated by the English near Dunkirk, *ut supra*, p. 1919. *Appending:* said report, dated June 1 inst. From the depositions it seems that the matters complained of are quarrels between English and French fishermen at sea and no ways relating to the business of the Customs. We have no way to examine the matter, as no person or vessel is named or certainly described. But we hardly conceive the matter to be worthy of his Majesty's cognizance. Being *super altum mare* it is more properly enquirable in the Admiralty.	*Ibid*, p. 392.
	Same to Mr. Blathwayt [as Secretary to the Forces]. Henry Howard, esq., Commissary General of the Musters, has represented to the King the necessity of adding one Deputy Commissary of the Muster. You are to prepare a royal warrant for inserting such addition in the establishment of the Army as from April 1 last.	*Ibid.*
	Same to the Attorney General to give order to the Clerk of the Petty Bag to prepare a commission to Mark Ryder of the Inner Temple, esq., Marmaduke Gibbs and Edward Burdett of Grays Inn, esq., John Nash, Joseph Radcliff and William Jobson, esqrs., to enquire of lands in cos. Kent and Essex which have been left derelict by the sea within 60 years past and do belong to the King and have not been demised by the Crown, but are now unjustly detained from the Crown.	*Ibid*, p. 394.
	The Treasury Lords to Sir Edmond Andros, Governor of New England. The King is informed by your letter of April 4 last that a small vessel at her going to the wreck near Hispaniola was compelled	*Ibid*, p. 394. *Out Letters (Plantations Auditor)* I, p. 300.

Out of tender regard for the fact that you required bond for the King's tenths only without mention of a moiety it is the King's pleasure that you restore to the persons concerned four-fifths of the moiety so received and that the remaining fifth, being a tenth of the whole, be retained in the hands of the Receiver General of New England till the King's pleasure as to its disposal be announced.	
June 14.	Treasury reference to the Mint Commissioners of the petition of the pewterers of London; petitioners shewing that they have heard that the King is disposing the pre-emption of tin [by way of farm]; "that the petitioners in this case had a certain proportion of tin allowed them; if care shall not be taken for them they are undone": therefore pray that on such contract provision may be made [for a share in the farm] in a due proportion according to their number at the rate the farmer pays.	*Reference Book* V, p. 274.
	Treasury warrant to Auditor William Aldworth to discharge the supers of 165*l.* 17*s.* 3*d.* set upon Sir Edward Thurland in the accounts of the King's private revenue which belonged to his Majesty when Duke of York; the same being for the rents of the manor of Reigate for the year ended 1668, Sept. 29; and another super of 4*l.* set on him for a year's rent of Fryday Mead there to 1669, Sept. 29; and another super of 40*l.* set upon Edward Thurland, esq., deceased, son of the said Sir Edward, for a fine due from him upon his admission to a copyhold tenement of lands in Reigate: the said three supers amounting to 209*l.* 17*s.* 3*d.*: all by reason that there is an arrear of 130*l.* owing to the said Sir Edward for 3¼ years to 1672, Sept. 29, on his salary of 40*l. per an.* as Solicitor General to the said Duke of York and that Edward Thurland, grandchild of the said Sir Edward and son of the said Edward, has on May 30 last paid into the Exchequer [79*l.* 17*s.* 3*d.*], which with said arrear makes up said super.	*Warrants not Relating to Money* XII, p. 328.
	The Treasury Lords to the Lord Deputy of Ireland. We have laid before the King the drafts of the proclamation to prevent the exportation of wool, and his Majesty approved that draft which contains the Attorney General's amendments. We return same herewith. It is the King's pleasure that on receipt you forthwith issue it in Ireland.	*Out Letters* (*Ireland*) V, p. 122.
June 15.	Henry Guy to Serjeant Ryley to mark in Waltham Forest sufficient trees to make pales, posts and rails for 40 poles [of land] to be used about the house of the Rt. Honble. Sir Nicholas Butler within the King's manor of Edmonton.	*Out Letters* (*General*) XI, p. 391.
	Same to the Customs Commissioners to deliver to the Honble. Bernard Howard, esq., of Norfolk, goods as follow on payment of Customs. *Appending:* said Howard's letter, dated June 14, requesting that Mr. Hum. Wharton of the Custom House may take care of same and pay duty thereon:	*Ibid*, pp. 391–2.

June 15.	Royal sign manual to the Lord Deputy of Ireland to pay to James Alexander, late agent to the Regiment under George, Earl of Dunbarton, 511*l.* 16*s.* 9¾*d.* upon the several warrants or assignments which he has in his hands on which there is an unpaid balance of 1,204*l.* 5*s.* 5¾*d.* payable by the last Farmers of the Revenue of Ireland: it appearing by William Hewer's certificate that from said balance there is to be deducted 240*l.* 10*s.* 0*d.* as alleged by said Earl of Dunbarton to be due from said Alexander to said Regiment and a further sum of 451*l.* 18*s.* 8*d.* as appropriated towards satisfying a debt due from said Regiment to the late inhabitants of Tangier: thus leaving said 511*l.* 16*s.* 9¾*d.* as the net balance due. This payment is to be made out of the revenue of Ireland in regard that the late Farmers of the Revenue of Ireland have as yet no allowance in their account of the said moneys due on the said warrants or assignments, the same being still in the hands of said Alexander unsatisfied. But it is the King's intention that the said sum of 511*l.* 16*s.* 9¾*d.* shall hereafter be repaid and made good to the Crown by the said Farmers out of the balance of their account when the same shall be determined.	*Out Letters* (*Ireland*) V, pp. 121–2.
June 16.	Treasury reference to the Customs Commissioners of the petition of Peter Henriques, merchant; petitioner shewing that cacao nuts were formerly brought from Cadiz to his Majesty's Plantations by the Spaniard and thence to England in English ships; that the Spaniards are since disabled from the same by pirates, which hath given the Dutch opportunity of engrossing the [trade of the] Spanish West Indies in great measure to themselves: therefore prays permission to import 20 tons of Cacao nuts from Holland in English built ships on payment of duty.	*Reference Book* V, p. 274.
	Same to same of the petition of Arnold Aram, customer of Gloucester, praying payment of 26*l.* 13*s.* 4*d.* due to him for four years' salary to Lady day last; and praying for a dormant warrant for his salary for the future.	*Ibid*, p. 275.
	Same to same of the petition of Phi. Nisbett, late searcher of Hull, praying payment of 30*l.* due to him for 2½ years' salary.	*Ibid.*
	Same to same of the petition of Roger Clutterbuck, deputy searcher of London port, which office he has executed for seven years; petitioner praying to be translated to the office of searcher of Southampton port *loco* William Lyne, deceased; with leave to surrender his office in London to Hen. Canby.	*Ibid.*
June 17.	Royal warrant dormant to the Earl of Ranelagh, Paymaster of the Forces, to make out debentures from time to time for the pay of an additional Deputy Commissary "to the intent we may thereupon issue out our warrants for the payment thereof at the usual terms": the King having thought	*King's Warrant Book* XIII, p. 9.

June 17.	Henry Guy to the Earl of Ranelagh. The Treasury Lords desire you to hasten your report concerning the accounts of the Irish [Revenue] undertaking [in which you *et al.* were concerned with the late Irish Revenue Farmers].	*Out Letters* (*Ireland*) V, p. 122.
June 18.	Money warrant for 600*l.* to Sir Benjamin Bathurst, kt., for interest to Lady day last on 10,000*l.* remainder of 15,000*l.* by him advanced on the Excise: as by an account thereof stated by Auditor Aldworth and allowed by the Treasury Lords June 18th inst. (This money warrant replaces that of April 9, *supra*, p. 1854.) (Money order dated June 19 hereon.)	*Money Book* VIII, p. 478. *Order Book* II, p. 155.
	Henry Guy to Sir Tho. Griffith, Alderman Hartopp, Mr. Richard Holt, and Mr. James Kelk. The Earl of Bath attended the Treasury Lords this morning and communicated to them the letter which he received from Mr. Holt on your behalf. My Lords desire you to attend the King at the Treasury to-morrow afternoon at 5 p.m., when my Lords intend to offer your names to the King for his acceptance.	*Out Letters* (*General*) XI, p. 393.
	Same to the Commissioners of Excise and Hearth-money. The Treasury Lords are informed that John Abbot, an officer of the Excise, is indebted to the King in 12*l.* 3*s.* 4*d.* for rent due for 40 acres of meadow in Cawood Ings, being part of the revenue of the Archbishopric of York. You are to take care to stop this sum out of his salary and to pay it to Nicholas Sugar, the King's [*sede vacante*] receiver for that revenue.	*Ibid.*
	Same to Mr. Blathwayt [as Secretary to the Forces] to report on the enclosed petition [missing] of Lord Jermyn, Governor of Jersey. You are to certify how the castle of Jersey used to be repaired.	*Ibid*, p. 394.
	Same to Sir Robert Holmes. The Treasury Lords desire to speak with you when you come to town about Col. Arnold Cooper's petition.	*Ibid.*
	Same to Mr. Sugar. You have presented a memorial to the Treasury Lords concerning several matters relating to the revenue of the Archbishopric of York. My Lords have made the following rules [rulings] thereupon, viz. (1) The bailiff of Otley, Lawrence Flesher, has not made any account for the perquisites of Courts for that manor for two years ended at Michaelmas, 1687. He confesses to have received between 8*l.* and 10*l.* *You are to put another person into his place.* (2) Several persons being presented by juries both in Ripon Court, Otley Court and other Courts, do refuse to pay their presentments and threaten to sue the bailiffs if they levy, so the moneys of the presentments are uncollected. *You are to try it at law with my Lord of Ailesbury.* (3) The bailiff of Southwell, Charles Benson, has 17*l.* in his hands for wood sold and delays the payment of it, pretending he knows not how to get a good discharge for it. I proffer him my acquittance for it. *You are to*	*Ibid*, p. 395.

Jegon is a whole year in arrear of her rent, being 126 quarters of barley, 71 quarters of wheat, 21 quarters of oats, 21 quarters of pease, 10 swine, 12 geese, 12 hens, 12 capons and 500 eggs. "*Their Lordships order the whole rent to be* 150*l. per an.*"	
June 18.	Treasury warrant to the Customs Commissioners to add 10*l. per an.* to the present salary of the collector of Beaumaris port to make it 40*l. per an.* in regard of the great increase of business in said port by Plantation ships coming to discharge there. A boat to be established for the better guarding of Chester water, with two boatmen at 10*l. per an.* each, and their station to be at Parkgate and Helbre: and Edward Tailor and John Bennett to be the said boatmen: all as proposed by William Carter in his late survey of Chester port. Tho. Warburton to be deputy to the Comptroller of Chester in Liverpool port, with 20*l. per an.* from the said Comptroller and the clerk's profits and 10*l. per an.* from the King: Henry Stephens (waiter and searcher at Wyre Water in Poulton port) is to be deputy to the searcher of Chester in said port of Poulton and to have all the searcher's fees there or 10*l. per an.* from the said searcher and an addition of 40*s. per an.* from the King to his present salary of 10*l. per an.*: Thomas Weldon to be deputy comptroller at Poulton with the Comptroller's fees there or 20*l. per an.* and with 10*l. per an.* from the King: Charles Anderton to be deputy to the Customer and the Comptroller in Lancaster port with the fees of the Customer and the Comptroller or 20*l. per an.* from each of them and with 20*l. per an.* from the King: Richard Ansdell (boatman at Helbre and Hoylake), who is on the establishment of Chester port, is to be put upon the establishment of Liverpool port, which is nearer to his station and much more convenient for his receiving his salary: all as proposed by Mr. Carter [in his survey of Chester port as above] in view of the insufficiency of several of the patent officers' deputies there and the mean allowances which they have from their principals which are very disproportionable to their trust; the Customer, Comptroller and searcher having bound themselves to allow 20*l. per an.* each to their deputies in such members of said port where they are by law to have deputies with seals of office. Two tidesmen to be added to the establishment of Weymouth port for strengthening that guard; and Benjamin Bonkin and Jno. Tettershall to be such tidesmen and boatmen there with 30*l. per an.* each without incidents; it having been found for the King's service that in such of the outports where ships usually touch in their passage towards London or other ports, tidesmen should be put on board such transient ships for securing the Customs and Weymouth is a port convenient for boarding tidesmen upon such vessels, by which means some of the tidesmen upon such occasions are withdrawn from the service of the port. Francis Burdet (a deputy patent waiter in London port) to be a landwaiter *ibid. loco* George Boucher, lately dismissed; "and the said Fran. Burdet to come into the salary of Francis White and the said Francis White to come into full salary."	*Out Letters (Customs)* XI, pp. 152, 153, 154, 155, 156, 157, 158, 159, 160.

Benjamin Boston to be waiter and searcher at Huttoft Bank in Boston port *loco* Joseph Norton, lately deceased. Reynolds to be a watchman, London port *loco.* Allen Foard, lately deceased. John Underwood to be tidesman in Lyme Regis port *loco* ——— Warner, who declines the employment. James Wixall to be established as a tidesurveyor in Liverpool port at 30*l. per an.*: as proposed by William Carter in his late survey of Chester port. Edward Lawrence (surveyor of Rochester port) to be tidesurveyor, Yarmouth *loco* John Nelmes, removed, *ut supra.* Richard Knightley to be surveyor of Rochester port *loco* Edward Lawrence, removed, *ut supra.* Phillip Gardner to be tidesman and boatman at the Pill in Bristol port *loco* Mathew Gilmore, lately dismissed. June 18.	Henry Guy to the Revenue Commissioners, Ireland. The Treasury Lords have given leave to Edward May, collector of Waterford, to remain to July 31 next here [London or England] to despatch the business for which you gave him leave.	*Out Letters* (*Ireland*) V, p. 119.
	Same to Sir Maurice Eustace. The King has been petitioned by Capt. Thomas Macwey for a grant of eight acres of land and some mills and weirs thereon in Kilmainham, co. Dublin, which he alleges are in his possession by a *custodiam* at 23*l.* 5*s.* 0*d. per an.* On reference from the King the Treasury Lords referred this petition to the Lord Deputy of Ireland, who referred same to the Attorney General of Ireland. I send you a copy [missing] of the latter's report thereon, which the Lord Deputy has forwarded to the Treasury Lords. The King will give direction for a grant to petitioner	*Ibid*, p. 123.

June 18.	Treasury reference to the Customs [*sic* for Navy] Commissioners of the petition of Mary Lynch, widow, praying payment of the money due to her husband as purser of the ship *Adventure*.	*Reference Book* V, p. 275.
	Same to the Customs Commissioners of the petition of Serjt. Halsey, shewing that his ancestors have served successively in the office of the Acatery from King James the First's time, that his father suffered remarkably in the late times of usurpation; that petitioner has been sworn into said office by the late and present King, but by the new establishment of the Household he is made a supernumerary officer with but 25*l*. *per an*. for his subsistence and has lost an employment in the Greencloth by the death of Sir Winston Churchill, which was the principal means of his livelihood: therefore petitioner prays a waiter's place in the Customs, London port.	*Ibid*, p. 276.
June 19.	Royal warrant to James, Duke of Ormonde, Lord Steward of the Household; William, Earl of Yarmouth, Treasurer [of the Household]; Henry, Lord Waldegrave, Comptroller of the Household, and to the rest of the Board of Greencloth to allow and pay 130*l*. 10*s*. 0*d*. to Sir John Sparrow, kt., "Comptroller of our Houschold," who was employed by the King's command to attend the Queen of Portugal from Holland into Portugal, in which voyage he was 87 days and in which he was at the expense of clothes and was obliged to be at great charges, but by the establishment could only have 10*s*. a day, which the King is pleased to make up into 40*s*. a day for the said time, which makes 130*l*. 10*s*. 0*d*. more than he has already received thereon.	*King's Warrant Book* XIII, p. 10.
	Same to the Attorney or Solicitor General for a great seal for a grant to Nathaniel Hornby of all such annuities, rents charge, rents service or other rents, sums in gross, lands, houses and personal estate whatsoever of John Wildman (who stands outlawed for misdemeanour), to which said Wildman at the time of his outlawry or since is or may be entitled by grant or otherwise of George, late Duke of Buckingham, or out of any manors or lands of the said Duke: to hold the same to him the said Hornby, his heirs and assigns, as amply as the Crown might hold same by reason of said outlawry: with a reservation to the Crown of the rents and services (if any) due thereout at the time of said outlawry: and with power to Hornby to recover the premises with the aid of the Exchequer.	*Ibid*, pp. 10–11.
	Same to same for a same for a grant to George Scott, citizen and fishmonger of London, and his heirs of the fields called Old Field, Isonsfield, Foots Croft and Backhouse Croft, containing together 40 acres, within the parishes or precincts of Otton-Belchamp and Foxearth, co. Further that Carey, now Earl of Roscommon, having a challenge (by virtue of letters from Charles I and II) for a grant of lands to the value of 200*l. per an.*, obtained such a grant 1661, Aug. 9, of "some parcels of land at a certain yearly rent."

1688.	Further that one William Brooks discovered the King's title "to the said ferries and to several lands" in order to the passing of them to the late Duke of Monmouth and at the same time the said Earl of Roscommon brought in a schedule of several inheritances which he alleged to be in the Crown (which for the most part were the same as those discovered by the said William Brooks) in order for a grant thereof to complete his said 200*l. per an.*: and thereupon the said late Duke of Monmouth, the Earl of Roscommon and the said Brooks entered into articles of agreement 1675–6, Mar. 14, that 200*l. per an.* of the said discoveries should be to the use of the Duke of Monmouth and his heirs and that William Brooks should have a third of the said 200*l. per an.* and that the Earl of Roscommon should have "to him and his heirs so much thereof as will amount to the sum of 32*l.* 10*s.*0*d. per an.* [? which with what had been] formerly granted to him would complete to him 200*l. per an.*; and that [of] what should be granted over and above the said 400*l. per an.* two third parts thereof should be for the said late Duke of Monmouth and his heirs and the other third part for the said Cary, Earl of Roscommon, and the said William Brooks and their heirs and that what letters patent thereof should pass should be in trust for the said parties according to the said proportions": thereupon the said patent was passed to the Duke of Monmouth of the said ferries and lands as therein, which grant it is conceived was in trust as above: so that the said Duke was seized of all in trust as above, "but what the value of the said ferries are or whether ever enjoyed by the late Duke of Monmouth doth not appear to me": but whatever his interest therein was, it is now vested in the King by said Duke's treason and a lease may be made to petitioner of such part and proportion of the said ferries as belonged to the said Duke and at a proportionable part of said rent of 33*l.* 10*s.* 0*d.*, with such addition of rent as the King may think fit; but the Duke's attainder must first be certified into Ireland and thereupon a Commission should issue to enquire of the King's title to the ferries. This report of the said Attorney General being remitted with approval Mar. 14 last by the Lord Deputy of Ireland to the Treasury Lords, England, it is hereby the King's pleasure that such Commission of enquiry issue as above, after such certification of treason, and in case the King be found so entitled then the patent as above herein is to be passed.

[?]	Report to the Treasury Lords from William Blathwayt on the petition of Richard Frith, referred *ut supra*, p. 1981, petitioner praying a grant of Crabb Island lying in 17½ degrees north latitude in the West Indies. Hereon Blathwayt reports that Sir Nathaniel Johnson, Governor in Chief of the Leeward Islands, has by letter of Feb. 20 last represented to the Committee for Trade and Plantations the conveniency or otherwise that may attend the settlement of Crabb Island and desiring the directions of the said Committee thereon. Thereupon they have declared their opinion that the settlement of this island may be fit to be encouraged provided it be without charge to the King. Sir Nathaniell Johnson will receive orders therein by the next ship. I further think that in case of such a settlement it will be necessary for the King to appoint a Governor and that the government thereof be made subject and accomptable to that of the rest of the Leeward Islands, from whence this island may receive all necessary assistance upon any attempt or invasion of the Spaniards of St. John de Porto Rico, who by reason of their neighbourhood and pretensions will certainly use all possible means to hinder any foreigners from settling this island. *Prefixing:* note of said petition and of the order of reference thereon.	*Out Letters* (*Plantations Auditor*) I, p. 301.
July 10. 	Report to the Treasury Lords from William Blathwayt on the petition of Capt. Daniell Jones, late commander of the King's ship *Diamond*, shewing that he seized a vessel belonging to John Sutton of Barbados for trading contrary to the Royal Africa Company's charter and to the Navigation Acts; that after condemnation Sir Richard Dutton, Governor there, possessed himself of the ship and goods to the value of 1,000*l.*, paying petitioner but 100*l.* as a third part thereof and accounted to the King for only 100*l.* as the King's third. Hereon Blathwayt reports that Sir Richard Dutton has declared that said ship and negroes were sold by inch of candle for 300*l.* and an accompt has been made up and stated before the late Treasurer [Rochester] accordingly and Dutton has obtained a privy seal for the allowance of same. To support his valuation of the ship Dutton has produced the affidavit of James Reeves, coxswain of the *Diamond*. I think petitioner has his remedy at law against Dutton for his share of the true value of the ship and negroes; which [action] will be likewise a good service to the King, to whom there will accrue an equal third. *Prefixing:* note of said petition and of the order of reference, *ut supra*, pp. 1952–3.	*Out Letters* (*Plantations Auditor*) I, pp. 302–3.
July 12.	Money warrant for 536*l.* 1*s.* 4¾*d.* to William Blathwayt, assistant to the Clerks of the [Privy] Council attending the Committee for Trade and Plantations, being for two quarters to June 24 last for salaries and incidents for the Plantation Office. (Money order dated July 16 hereon.) *Appending:* said bills: (1) for 1688, Lady day quarter (total, 267*l.* 6*s.* 4¾*d.*): (2) for 1688, June 24 quarter (total, 268*l.* 15*s.* 0*d.*), as attested in each case by several Lords of the Privy Council.	*Money Book* IX, pp. 25–6. *Order Book* II, p. 164.

June [*sic* for July] 12.	Treasury reference to the Customs Commissioners of the petition of Hen. Bulstrode, shewing that he was surety in 50*l.* for one Ludlow, a tidewaiter, London port, who was since removed to Bridgwater port, and there misbehaved himself, and petitioner's bond is put in suit: therefore prays relief.	*Reference Book* V, p. 289.

	Same to the Customs Commissioners of the petition of Samuell Eyre and Jo[h]n Bowells, merchants; petitioners shewing that for 12 months past galley tiles, Delft red and counterfeit china wares have been prohibited, to the great loss of the Customs and almost to the ruin of the retailers in those wares: therefore pray a licence for seven years for the sole importation of said wares "by reason whereof the manufactury in time may be draw'd out of Holland hither."	*Ibid.*
	Same to same of the petition of Moses Mocata, merchant, shewing that he ordered in Holland 1,400 *cwt.* of Cauca nuts in several parcels and lacking there a fit market would have brought them to London but for the Navigation Act being against him, as they are of the growth of America and not of Europe: therefore prays liberty to import same from Holland.	*Ibid*, p. 295.
	Same to same of the petition of William Stewart for a landwaiter's place, he having performed acceptable service in the time of the late rebellion.	*Ibid.*
	Same to same [*sic* erratum for to William Blathwayt] of the petition of the Proprietors of New East Jersey to the King; petitioners setting forth that since it is the King's resolutions to join the government of East New Jersey to that of New England they do in order to fulfilling his will surrender the grant they have of that province: but the said grant being both of the soil and the government whereof only the last is to be surrendered, yet their right to both will be avoided as joined in the same deed; they therefore conceive it necessary for the security of their title to the soil that they have a new patent for the same.	*Ibid*, p. 296.
	Same to the Customs Commissioners of the petition of Hannah Larkham, widow [of] Tho. Larkham; shewing that in 1677 Tho. Miller "being Commander in Chief [*sic:* erratum] and collector of Customs in Carolina" was robbed not only of the King's money but of	*Ibid*, p. 297.

As to the security to be given by Sir Henry Bond and William Doe for their due accompting for their receipts, the sureties [besides themselves] whom they propose, viz. William Gage and William Bond, are in England. Please take care that the principals, Sir Henry Bond and Mr. Doe, execute the bond in Ireland, then send it to us and we will see it executed here by the sureties here. Herewith you will receive the King's letter for allowing 233*l.* 4*s.* 4*d.* for transporting the 650 men to Chester. We represented to the King your statement of the case of John Kirwan; but notwithstanding his confession and submission the King thinks the transporting of wool to foreign parts is such a public mischief that he is not at all inclinable at this time to pardon him or any other for that offence. As to Mr. John Price, you say he would discharge himself of 13,750*l.*, alleged by him to be sent over, by bills of exchange on Thomas Price, for which he says that the effects of the said Thomas are seized into the King's hands. We have directed Mr. Graham and Mr. Burton to state this matter and enclose to you their report [missing] thereon. It appears thereby that sufficient is seized to cover 6,500*l.* and on reading our report to the King he was pleased to declare that he would take that 6,500*l.* and you are to respite only so much on said [John Price's] account and you are to secure the rest which he ought to answer to the King. Further, Mr. Price demands a credit of 4,984*l.* 8*s.* 1⅜*d.* as paid (on account of the revenue which was the King's private estate there) by bills drawn on Mr. Heron. We do not find that any money has been paid into the Exchequer here on that account since Nov., 1686, and having sent for Mr. Heron he disowns that he has any money or bills for that sum or any part of it. Take care to secure the money which Mr. Price owes on account of that [the King's private] revenue. We also observe in Price's stated account of that private revenue as per enclosed copy [missing] that he gives himself credit for 5,397*l.* 1*s.* 6¼*d.*, which he alleges was remitted to England in Feb. last. But on enquiry we do not find that to be true or anything more than a mere pretence. You are therefore to take care that this sum be surcharged on him and answered to the King. Upon the whole matter we find Mr. Price so deeply engaged in his accounts to the King that we expect you to see that the money he was to receive from Sir Henry Bond and Mr. Doe shall be applied in discharge of his debt. We have represented to the King your proposal about paying another month to the Army [Ireland].	*Out Letters (Ireland)* V, pp. 129*b*–30.

July 17.	Royal warrant to the Treasury Lords to give warrant to Phillip Ryley (lately employed in Dean Forest) with the assistance of the officers of Dean Forest, co. II, c. 8] for preservation of said forest "we [the king] may enclose of the waste ground in any part of the said forest not exceeding 11,000 acres at any one time and that there is now but 2,500 acres or thereabouts enclosed in the whole, whereby the common is enlarged to the people and their stock of cattle thereupon increased proportionately and the said underwood and young timber growing therewith [is] exposed to the injury of both; but that were the underwoods cut and inclosures made and kept until the younger timber should become past danger of browsing of deer, cattle and other prejudice" such parts so deemed safe might then be laid open and other fresh parts cut and enclosed, thus improving the condition of the timber in few years: further that the cost of such enclosures will be small, many of the grounds having been formerly enclosed and others being bounded by the lands of the freeholders: of all which report the King has approved.	*King's Warrant Book* XIII, pp. 37–9. *Warrants not Relating to Money* XII, pp. 342–4.

At the Assizes and General Gaol Delivery of said county, held at Lincoln Castle Mar. 8 last, before Sir Thomas Street, kt., a Justice of Common Pleas, a fine of 1,000*l.* was imposed upon the said county for not having a common gaol nor a shire house fitting for the Justices of Assize to sit in. 	Treasury reference to Bartholomew Fillingham, Tho Hall, William Lowndes and Philip Ryley [Agents for Taxes] of the state of Mris. Dashwood's case as follows. The referees are to report as to the sufficiency of the respective estates of the late Undertakers for the Irish Revenue [the former Farmers of the great branches of the Revenue, Ireland]. *Prefixing:* said state. The balance of the late undertakers in Ireland upon their account is 76,752*l.* 18*s.* 5½*d.*, from which is to be abated 14,254*l.* 15*s.* 5*d.*, the money lately paid on account of the Forths' [share of the said] farm. This leaves a balance of 62,498*l.* 3*s.* 0½*d.* Two-thirds of this sum (to which Mris. Dashwood with others is liable) is 41,665*l.* 8*s.* 0*d.* Mris. Dashwood desires to be admitted to pay only one-eighth of this two-thirds because the persons or estates of eight undertakers are liable, viz. Sir James Hayes, Sir Alexander Bence, deceased, John Stepney, John Bence, Joseph Dean, George Dashwood, deceased, Robert Huntington, deceased, and Richard Kingdon, deceased. The said eighth part will amount to 5,208*l.* 3*s.* 0*d.* But her share will be 8,333*l.* if Mris. Dashwood is to pay a fifth of the said two-thirds on the ground that only five of tho said undertakers' estates are reputed to be solvent, viz. Sir James Hayes, Sir Alexander Bence, John Stepney, John Bence and George Dashwood. On behalf of Mris. Bence it is alleged that Lomuel Kingdon left an estate which would have been reached for the king's debt if his heirs since his death had not been discharged by the King: also that some estate is left by Major Huntingdon, which his executors must apply to the satisfaction of his part of this debt before any other creditors, and his said executors have pleaded the King's debt in bar of actions of other creditors. Mris. Dashwood therefore prays that the estates of Kingdon and Huntingdon be reckoned as if solvent. *Memorandum:* there was annexed to the above paper a [former] petition of Mris. Dashwood; a report by the Attorney General; another by Mr. Lowndes; another computation of tho said balance.	*Reference Book* V, pp. 301–2.

July 30.	Royal warrant to the [Earl of Bath] Lord Warden of the Stannaries and to the Parliament of Tinners. The King has for himself and on behalf of the Prince of Wales come to an agreement with the tinners, in Convocation assembled, to take all the tin that shall arise within the respective Stannaries for eleven years from June 24 last at 3*l.* 10*s.* 0*d.* per hundred stannary weight over and above the coinage duty Further, by the mediation of the Earl of Bath, Lord Warden of the Stannaries, the King has admitted and accepted Sir Thomas Griffith of London, kt., Thomas Hartop of London, esq., Richard Holt and James Kelke of London merchants, to be farmers of the Pre-emption and of the Coinage duty of tin; they having agreed to take all such tin as shall arise within the said Stannaries during said term at said price in such manner as the King was to take same at the respective coinages as hath been accustomed. It is therefore the King's pleasure hereby that the tinners of the respective Stannaries do from time to time deliver to the said Farmers all such tin as they have made or shall make within said term, they paying therefor according to the said agreement: all to the mutual advantage of said Farmers and said tinners and to the advancement of the revenue of the Prince, Duke of Cornwall.	*King's Warrant Book* XIII, pp. 60–1.
	Royal letter to said Earl of Bath to signify to the tinners the agreement as above, acquainting them with the names of said Farmers, and that the King will be in all things careful to preserve the tinners' ancient rights, customs and privileges and that accordingly a Commission is to be forthwith prepared for said Lord Warden to treat and conclude with the Convocation or Parliament of tinners to ratify and confirm the premises and concerning all other matters relating to the Stannaries. Further, as it has been represented that the tinners may have some apprehensions or jealousy that the late adjournment of the Midsummer Coinago ("being, as you have informed us, a coinage of right") might be prejudicial and an invasion of their rights of Coinage, wherefore it is desired by said Earl that it be not brought into a precedent, the said Earl is hereby to assure the tinners that the King neither had nor has "any such intention to invade or infringe any of their rights or customs and the said adjournment (as you know) was only and for no other cause than for the good of the tinners themselves" according to their petition and for the carrying on of the farm, without which it could	*Ibid*, pp. 61–2.

You and the Convocation are therefore to settle the same in such manner as that the said adjournment in this case shall be no precedent for the future nor prejudicial to the rights and privileges of the tinners if the same be found contrary to the laws and customs of the Stannaries.	
July 30.	Royal warrant to the Clerk of the Signet for a privy seal to empower the Earl of Bath to treat as follows with the tinners of the Stannaries of Cornwall and Devon. In 1686 the said tinners in their respective Parliaments and Convocations complained representing the great decay of the Stannaries occasioned by the combination of merchants, whereby the price of tin was sunk so low as that their labours and adventures were wholly discouraged, and therefore they prayed a commission to you to treat with them for the king's taking all their tin in farm at such a rate as might encourage their adventures. Therefore in consideration of the constant loyalty of the said tinners and out of a just compassion of their ill circumstances the King by order dated Windsor, Aug. 16 last, declared that he would be content to take at 3*l.* 10*s.* 0*d.* per hundred[weight] all the tin that should be found within the said Stannaries, being much beyond the then price current or what could otherwise be by them hoped for by any other means. By the order dated Whitehall, Nov. 29 last, you were directed to signify whether the tinners would accept of the [said] price with an assurance that if they did a commission should be issued to you to conclude and treat with them thereupon. You have communicated same to them and they have by certain instruments under the hands of the respective members of the respective Parliaments or Convocations (the one dated at Lostwithiel for the Stannaries of Cornwall, 1687, Dec. 19, the other at Tavistock for the Stannaries of Devon, 1687, Dec. 14) declared their cheerful assent to the said price. You are therefore hereby authorised to forthwith repair to Lostwithiel and Tavistock (or to such other places as may be convenient for the said Parliaments or Convocations to be adjourned to) and to complete and execute the said agreement according to the articles annexed: taking care that same be ratified in said Convocations. Further, hereby you are authorised on behalf of the Prince, Duke of Cornwall, to assent to all such laws and constitutions as shall be agreed upon and presented to you by the said Convocations for the welfare and good government of the Stannaries in such manner as has been accustomed. "And whereas since the transactions abovesaid it hath pleased God to bless us with a son, who is by birth Duke of Cornwall, and all our interest in the Stannaries is thereupon devolved upon our said dearly beloved son, we do hereby declare the agreement aforesaid to be on the behalf of our said dearly beloved son the Duke of Cornwall and his successors" and do hereby promise that this agreement shall be ratified by the said Duke under his great seal within the space of twelve months. *Appending:* articles and instructions to be observed by the Earl of Bath in execution hereof. (1) You shall settle an agreement with the Convocations for all the said tin at said price of 3*l.* 10*s.* 0*d.* per hundred Stannary weight, "accounting 120*lbs.* at 16*oz.* to	*King's Warrant Book* XIII, pp. 62–4

(2) You shall for the King agree that during the continuance of this farm the tinners shall be discharged of the Coinage duty of 4*s.* per hundred. (3) The price of every parcel of tin at the said rate shall be paid to the respective tinners within six days after the delivery of same; or in default thereof the owner to dispose the same at his pleasure upon payment of the Coinage duty and Customs. (4) The King condescends and agrees that there shall be four coinages yearly at each coinage town at the usual times, to be ascertained [fixed] as in former farms. (5) The King's agents, farmers or assigns shall have a bank or stock of 10,000*l.* in the whole; to be divided and lodged in each coinage town; some thereof (in such proportion as shall be fit) to be from time to time lent and advanced to the tinners betwixt the Coinages upon good security at 6 *per cent* for two or three months "and if but for one month and the tin in the [Coinage] Hall, [then] to be lent gratis."	
July 30.	Royal warrant to the Attorney or Solicitor General for a great seal for a fresh Commission for hackney Coaches (for licensing, regulating, ordering and governing all hackney coaches to be let or driven within the several parishes comprised within the weekly bills of mortality): the new Commissioners to be John Philipps, Col. Thomas Napier, Thomas Price, Richard Sheldon and John Baptist Nipho, son of Jerome Nipho: in place of the said Philipps, Napier, Price and Jerome Nipho. [The effect of this new Commission is simply to substitute Nipho, senr., for Nipho, junr.]	*King's Warrant Book* XIII, pp. 65–6.
	Same to the Clerk of the Signet for a privy seal for a grant to Rowland Woodyer and William Challoner, their executors and assigns, of all Customs or duties on lampernes exported alive out of the Thames or elsewhere in England to Holland and Zealand or other places within the jurisdiction of the United Provinces of the Netherlands: viz. from 1684–5, Feb. 6, to 1694, Sept. 11: they paying therefor the existing yearly rent of 20 marks (as in the existing grant of the premises) and all arrears thereon to Feb. 2 last and "also the same or the like yearly rent of 20 marks from henceforth during the continuance of this grant." All officers who have received or shall receive the profit of the said Customs since 1684-5, Feb. 6, [are hereby authorised and required to pay same] to said Woodyer and Challoner to their own use. But no benefit to be had of this grant till said arrears be paid into the Exchequer: all by reason that Charles II, 1663, Sept. 11, granted to Sir Joseph Wagstaffe, kt., since deceased, the sole benefit of transporting lampernes alive from England to Holland as above, for 31 years at the said rent of 20 marks, and the interest and benefit of the said letters patent have come to said Woodyer and Challoner "and those from whom they claim under the said letters patents did receive the Customs or duties of the said lampernes, which were exported, until the time of the demise or decease of our said royal brother, since which time the Customs or duties of lampernes exported do belong or are supposed to belong to" the Crown by virtue of	*Ibid*, pp. 66–8.

Aug. 1.	Henry Guy to Mr. Blathwayt, enclosing a paper (*a*) *infra*. The Treasury Lords direct you to lay it before the Committee [of the Privy Council] for Redemption of Captives. *Appending:* (*a*) said paper. Great endeavours have been used by Nash and Parker for the ransom of divers of the King's subjects from Machaness [Meknes]. They have been therein disappointed by the late ambassador that was here and [by the] now Governor of Sallee, instigated thereto (as the captives' friends do divers of them believe) by the other merchants residing at Sallee. They [? Nash and Parker] are thereto the more persuaded by being informed that one of their [? the other merchants'] co-partners here (viz. Jo[h]n Luddington the bigger, there being two of that name) is going over, and by his encouragement he gives to the captives' friends here of redeeming their relations it seems probable that he has encouragement to believe the same instrument, that hindered the other merchants from redeeming particulars, will assist him to do it. Now in case he goes on to redeem particulars [individuals] that have great sums the poor that are [have] little may be all left behind. These are chiefly mariners and would at this juncture be welcome to the nation. Is it not therefore proper to enquire into the said Luddington's intention and the King's gracious kindness extended to the rest by this man's means if he can give any probable grounds to believe he can obtain all their ransoms in general.	*Out Letters* (*General*) XI, p. 422.
Aug. 2. Rackett, gent., and John Russell, physician, creditors of Sir Robert Vyner; petitioners shewing that said Vyner did much abuse the late King by pretending great losses of him when in truth he was an exceeding gainer, as may appear from the accounts stated from time to time; that there is now in said Aldworth's hands an account stated by Richard Aldworth, deceased, to the first day of Jan., 1679–80, as between the King and said Vyner, amounting to 416,724*l.* 13*s.* 1½*d.*: they therefore pray a copy of said account.	*Reference Book* V, pp. 303–4.

	The Treasury Lords to the Lord Deputy of Ireland to report on (*a*) *infra.* *Appending:* (*a*) petition to the King from Edmd. Barry, esq., one of the King's Gentlemen Ushers Quarter Waiters: shewing that in 1671 petitioner was, by the present King [as Duke of York], recommended to the Commissioners [of the Acts of Settlement and Explanation] to be preferred to the tenancy of certain lands in Ireland; and he accordingly gave in to them a list of some few parcels of land not then in grant, but he was only offered some lands which were then in controversy and were not recovered to the Crown till some years afterwards and after he had condescended to take them he was obliged to such a rack rent, designedly imposed thereon, that to this day he has made no advantage of the grant: he therefore prays a lease of the premises for 31 years from May last at 2*s.* 4*d.* per acre, which is as much as any the King's tenants round about him pay for their lands,	*Out Letters* (*Ireland*) V, pp. 136–8.

On a hearing thercof it was ordered that all the defendants should account for all the moneys reccived by them or any of them and they were refcrred to an account before the auditors. Upon the stating of the said account it appeared that 25,475*l.* 12*s.* 11*d.* remained in their hands and was due to the King over and above their cravings of 22,405*l.* 15*s.* 10*d.* for orders charged on the Act which they pretended to have satisfied and to be ready to be delivered into the Exchequer to be cancelled, but as the said orders were never brought in the said defendants were ordered to be charged with both the said sums. But the late King did discharge Richard Kensey and Thomas Blagrave from their sharc of liability herein and the present King has similarly discharged the estates of John Billingsley and John Sawyer (both deceased) and does intend speedily to discharge the heirs and estate of William Hargrave, likewise deceased. But the estates of the said Wadlow, Henderson, Dios and Dermer (likewise all dead) remain still liable thereto. In consideration of the good services of said Earl of Ailesbury the King hereby grants to him said debt of 25,475*l.* 12*s.* 11*d.* and thc estates of the said four persons, which have been or may be seized in execution for said debt, all to the use of said Earl, his heirs etc. without account: he to have the assistance of the Exchequer Court etc. in suing same. No process is to be issued for the recovery of said debt save at the request of said Earl. The present grant is not to extend to the second named sum of 22,405*l.* 15*s.* 0*d.* or any part thereof: and no power is hereby to be given him to prosecute the estates of the said Kensey, Blagrave, Sawyer and Billingsley and it shall and may be lawful for the King to so as abovc discharge the estate of said Hargrave.	
Aug. 13. Oxford, kt. and bart., son and heir of said George, Sir Samuel Dashwood of London, kt., John Perry of London, csq., and Edward Noell of the Inner Temple, csq., cxecutors of the said George Dashwood: viz. as follows. (since deceascd), the King covenanted that from datc thereof until 1675, Dec. 26, all arrears of rent reccived upon the then farms of the great branches of the revenue of Ireland and all the growing rents thereon from 1675, Christmas, and all the King's title by reason of such rents and also all the King's treasuro and ready money which should be in the King's Treasury in Ireland upon the date of said indenturc and during the term of said farms or which should be "any ways due and owing to his said late Majesty's	*King's Warrant Book* XIII, pp. 72–80.

Treasury in Ireland or should be any ways due and owing to his said late Majesty in that kingdom by imprest or otherwise, and all other his said late Majesty's revenue in Ireland certain and casual, ordinary and extraordinary," should from time to time during the said term be issued and applied to such uses and purposes and in such order and manner and at such times only as they the said Visct. Ranelagh *et al.* as above have thereinafter covenanted and undertaken to see done and to no other uses and purposes whatsoever except what should be fit and requisite to defray the necessary charges and expenses of that undertaking: and they the said Visct. Ranelagh *et al.* as above did on their part covenant that they would within 14 days after warrants duly signed and to them directed, fully and duly answer and pay so much of the said late King's whole charge and expense of the kingdom of Ireland from Dec. 1 then last preceding unto the date of said indenture as ought according to the establishment to have been borne and discharged by Charles II if said indenture had not been made and moreover would from time to time from the date of said indenture until 1675, Dec. 26, fully answer and pay all the charges and expenses of the kingdom of Ireland as well in the payment of the civil and military lists thero according to their several establishments which were or should be made by Charles II " as otherwise, which by his said late Majesty, his heirs and successors ought to have been borne, defrayed and discharged if the said indenture had not been made; and should cause the same from time to time to be satisfied and paid by equal proportions within 40 days after the end of every quarter as the same should respectively grow due: and the payments thereof to be made in good, lawful and current money of England or such lawful and current money in Ireland as might be equivalent in Ireland to so much English money as should then be due, so always that the moneys to be paid and issued out for such charges and expenses as aforesaid should not in any one year exceed the sum of 171,843*l.* 5*s.* 6*d.*, out of which the fees and charges were to be deducted," all upon due and legal warrant for such issues. And they did further covenant that before 1675, Dec. 25, they would fully and truly discharge and pay several debts, duties and sums particularly mentioned in the said indenture or so much thereof as at the date of said indenture were behind and unpaid; and further to pay to the King at the Receipt of the Exchequer in Dublin 80,000*l.* at times and in a manner specified in said indenture. And on their well and truly performing their said covenants they were to retain to their own use the whole surplus and residue of any the said revenues. By a *scire facias* out of the Exchequer of Ireland against said Visct. Ranelagh, Hayes, Dashwood, John Bence, Huntington, Deane and Stepney judgment was obtained against them 1683, May 25, for 76,752*l.* 18*s.* 5¾*d.* Further, by bond, dated 1676, May 26, the said Visct. Ranelagh, Sir Alexander Bence, Hayes, John Bence, Stepney and Kingdon became bound to the late King in 30,000*l.* for the speedy accounting of the abovesaid partners and for their paying the King 24,000*l.* within two months of the adjusting

Bence, Stepney and Kingdon) furnished the said 24,000*l.* as [advance and] imprest towards paying a quarter's arrear of the Military List of Ireland. Upon this bond a *scire facias* issued out of the Exchequer, Ireland, and judgment was obtained against them 1683, Easter, for 30,000*l.* These judgments have been certified into the Court of Chancery, England, and have thence been transmitted into the Exchequer Court, England. Further, by a patent under the great seal of England, dated 1684, Sept., the King agreed with the Earl of Ranelagh not to levy on the said John Bence, Deane and Stepney or their estates, or on the estates of said Sir Alexander Bence, Dashwood and Huntingdon more than two-thirds, nor on the said Sir James Hayes or his estate more than eleven-twelfths, nor on the estate of Richard Kingdon more than nine-twelfths of what was then due to the King by the abovesaid indenture or judgments, nor to levy on the said John Bence, Stepney and Kingdon or their estates or on the heirs of said Sir Alexander Bence more than nine-twelfths of the aforesaid bond, nor on the said Hayes more than eleven-twelfths of the said bond or judgment. And since that time the present King has discharged the heirs of said Kingdon from said bond and from the judgment obtained thereon. And further the sum of 14,254*l.* 15*s.* 5*d.* has been paid into the Exchequer in England by Richard Graham, esq. and others upon which the King by indenture dated 1687, Aug 5, under the great seal of England did grant them [Graham *et al.*] the sum of 14,254*l.* 15*s.* $5\frac{1}{4}\frac{1}{8}d.$ due upon the farms of the great branches of the revenues in Ireland granted to Alderman John Forth and partners, "to which the said contract made with the said Earl of Ranelagh and his partners did relate." The present indenture therefore witnesses that in consideration of the further sum of 6,944*l.* 4*s.* 8*d.* of English money paid into the Exchequer, England, by Sir Robert Dashwood, Sir Samuel Dashwood, John Perry and Edward Noell, the King does hereby acquit and discharge them as heir and executors of said George Dashwood, and likewise the estate of said George Dashwood, from all the abovesaid covenants and agreements of 1671, Aug. 4, from the said debt of 76,752*l.* 18*s.* $5\frac{3}{4}d.$, and from the said bond of 30,000*l.* and the judgments thereon. On their part the said Sir Robert Dashwood, Sir Samuel Dashwood, John Perry and Edwd. Noell in consideration of the present release do quitclaim to the King all claims, pretences and demands of defalcations in right of said George Dashwood by virtue of the covenants of the said indenture of 1671, Aug. 4.

1688. Aug. 20.	Treasury letters patent constituting Charles Segar as a King's waiter, Bristol port [being the office held by him at the King's accession], he having by deed dated 1688, Aug. 8, surrendered his grant dated 1685, June 20, of said office [and therewith all his claim to arrears of salary unpaid thereon at the death of Charles II]. He is hereby to hold said office during the King's pleasure.	*Out Letters* (*Customs*) XI, p. 174.
	Treasury warrant to the Customs Commissioners to employ Francis Griffith as a landwaiter, London port *loco* James Wingfeild, preferred to be a surveyor of the landwaiters *ibid.* Jo. John Charlton as an additional tidesman in Minehead port at the salary of 25*l. per an.* without incidents to make up the number of three [tidesmen there], whereof one is to be sent alternately to Watchet.	*Ibid*, pp. 176, 177.
	Same to same to destroy the 232*cwt.* 2*qrs.* 22*lb.* of tobacco stalks now remaining in the King's warehouse: it appearing from the Customs Commissioners' memorial of the 11th inst. that shortly after the new imposition on tobacco, tobacco stalks bore a considerable price, being worth upwards of 40*s.* per hundredweight; which occasioned a great deal of industry in stealing them in from Holland and other places and that as great care was therefore used to prevent same; by means whereof stalks to the above amount have been seized: that the cost of seizure was 189*l.*; and tobacco stalks are not now worth above 8*s.* or 10*s.* per hundred, which would make the said quantity worth only 100*l.* "and that if they should be sold at the price aforesaid they would be cut up with tobacco and thereby supply the consumption of so much tobacco which would otherwise pay the King's duty amounting to about 460*l.*": wherefore it is to the King's service that same should be destroyed.	*Ibid*, p. 176.
	Same to same to employ Patrick Mein as surveyor as follows in Jamaica, Barbados and the Leeward Islands: the Customs Commissioners in their memorial of July 21 last having represented that he is returned from the survey of Virginia, Maryland and other his Majesty's Plantations in that part of America, which [service] he has performed to the said Commissioners' satisfaction: wherefore they think it to the King's advantage that he should also visit Jamaica, Barbados and the Leeward Islands with instructions to inspect the management not only of the Plantation duty of 25 Car. II, c. 7, and the execution of the Acts of Trade and Navigation, but also the [management of the] Four and a Half *per cent* Duty in Barbados and the Leeward Islands. He is hereby to be given particular instructions to prevent ships coming from the Plantations without giving good bonds. He is to have the like allowance as in his said former survey.	*Ibid*, p. 177.

1688. Aug. 20. Ryley to discharge out of his custody Zachary Bevan, merchant, arrested under the warrant of July 12 last, *supra*, p. 1996, he having offered a composition of 200*l.* for his offences in regard to uncustomed goods: which the Customs Commissioners advise to be accepted.	*Warrants not Relating to Money* XI, p. 348.
	Same to the Clerk of the Pipe, Comptroller of the Pipe, the two Remembrancers and all other officers of the Exchequer concerned, to supersede all process on the King's behalf on the outlawry sued against Sir Robt. Vyner, bart., by John Russell in a plea of debt.	*Ibid.*
	Same to the King's Remembrancer for a commission to Robert Humphreys of the Inner Temple, clerk to Sir William Godolphin, kt., in his office of Auditor of Crown Revenues of Wales, to hold the usual audit of the accounts within the Principality of Wales and the dominion of North and South Wales for this turn and for any time up to Mar. 1 next; viz. the accounts of all sheriffs, bailiffs, farmers, ministers &c. of all the King's honors, demesnes, castles, manors etc.: with a *salvo* of the rights of said Godolphin in said office of auditor, to whom said Humphreys is hereby to render a faithful account hereof: all by reason that said Godolphin was sent by Charles II as Envoy Extraordinary to Spain and was detained there many years in that affair and is still in foreign parts; and his deputy in his said office of auditor, viz. Thomas Tudor of the city of Oxford, gent., is by much infirmity rendered incapable of exercising the same.	*Ibid*, pp. 349–50.
	Royal warrant, dated Windsor Castle, to the Lord Deputy of Ireland for the making of allowances as follow and for the passing in the following form the final account of Sir James Shaen, kt. and bart., and his partners as Farmers and Managers of the Revenue of Ireland for seven years 1675, Christmas, to 1682, Christmas, under the indenture dated 1676, April 8; the said account being for six years and four months thereof, viz. 1675, Christmas, to 1682, April 30. By the said account the said Farmers appear indebted to the Crown in 87,594*l.* 0*s.* 11*d.* They are further chargeable with eight months' rent for the said revenues at 20,000*l.* per month from 1682, April 30, to 1682, Dec. 31, when their farm was ended; and likewise with several other rents or sums which by their said contract or indenture they covenanted to pay, viz. as follows: 20,000*l.* in 1682–3, Jan. 31, 20,000*l.* on Feb. 28 following and 20,000*l*, on Mar. 31	*Out Letters (Ireland)* V, pp. 138–145.

The total debt is therefore 307,594*l.* 0*s.* 11*d.* It is hereby ordered that the said Farmers' further account from 1682, May 1, be stated, made up and passed in the Exchequer, Ireland, and that therein they be charged with the said 307,594*l.* 0*s.* 11*d.* and on behalf of the said Farmers two of their number, viz. Edward Richbell and Lawrence Stanyon, have prayed allowances as follows, viz. in the front of their former account [as above] (as appears by a brief thereof signed by Richard Chappell, Deputy Auditor General of Ireland) they were charged with 60,000*l.* agreed by them to be advanced to Charles II and in the foot thereof they were allowed the said sum "which appeared to have been actually advanced and lent by them according to their agreement." They now pray that they may be repaid the said sum with 10 *per cent* interest therein as agreed. The account of said interest up to 1683, Mar. 31, is 42,459*l.* 8*s.* 11¾*d.* In their final account as above they are hereby to be allowed said 60,000*l.* principal and 42,459*l.* 8*s.* 11¾*d.* interest. And forasmuch as the said 60,000*l.* was agreed to be advanced in Ireland but for the benefit of Charles II and by his command was actually paid in England they are hereby to be allowed 7,200*l.*, being 12 *per cent.* for the exchange thereon between Ireland and England. Further, the said Farmers by the abovesaid indenture agreed to advance to Charles II 20,000*l.* before 1676, May 8, and they did actually advance 18,556*l.* 6*s.* 0¾*d.* in part thereof, to wit for or towards the building a fort at Ringcurran. The charge of this 20,000*l.* is to be balanced by a discharge of 20,000*l.* in the present final account and in order that they may be repaid the said 18,556*l.* 6*s.* 3¼*d.* they are hereby to have allowance of it, "they producing the vouchers to manifest their actual payment of the said sum." Further, they are hereby to be allowed 6,431*l.* 19*s.* 2¼*d.* for 10 *per cent* interest on said sum from the respective days of their advancing it to 1683, Mar. 31. Further, the said Farmers demand allowance of 4,020*l.* by them paid to Charles Bertie, Treasurer and Paymaster of the Ordnance, viz. 1,700*l.* on 1681–2, Feb. 25, 1,400*l.* on 1681–2, Mar. 4, and 1,020*l.* on Mar. 8 following, which payments have been attested by said Bertie. They are hereby to be allowed said sum and also 482*l.* 8*s.* 0*d.* for 12 *per cent* exchange rate thereon. They further claim allowance of 2,078*l.* 4*s.* 9¾*d.* for money deducted by Mr. Taylor out of the pay of the Army List and Civil List for the Farmers' use and 510*l.* 18*s.* 5*d.* "for money paid by two acquittances on the 10th of Feb., 1682–3, not pelled," which sums were not allowed in their former account for want of sufficient vouchers. Enquiry is hereby to be made whether Taylor did deduct the said 2,078*l.* 4*s.* 9¾*d.* for the use of said Farmers and did afterwards apply it to the use of Charles II and whether the said 510*l.* 18*s.* 5*d.* was actually so paid and not allowed; and if the facts prove so they are hereby to be allowed said sums, or any parts thereof, notwithstanding the absence of such regular vouchers according to the strict rules of the Exchequer. They further pray allowance of the following particulars, viz. 29,557*l.* 9*s.* 11¾*d.* for money by

Coghill, receiver of the rents of said archbishopric; this item being reported by Sir John Temple, Solicitor General of Ireland, as fit to be allowed. 707*l.* 15*s.* 11*d.* for part of the casual revenue which belonged to the Farmers during their farm and was applied by the Clerk of the Hanaper and Clerk of the Pipe to satisfy an annuity to the Dean of Christchurch, to allowances due to the auditor and Clerk of the Hanaper, to bounties to poor soldiers by order of the Chief Governor of Ireland, to the Vicars Choral [of Christchurch], to rent and repairs and necessaries for the Courts of Chancery and Exchequer; all as by an account thereof examined by order of the Treasury Lords, England. All these above recited thirteen sums are hereby to be allowed. Further, the Farmers crave allowance of 1,500*l.* alleged by them to have been received by the Revenue Commissioners, Ireland, after 1682, Dec. 25, when the Farmers' farm ended, being for Custom and Excise of goods imported before that date; whereupon Sir John Temple has reported the justice of such allowance and the Treasury Lords have directed the Revenue Commissioners, Ireland, to report how much such Customs amounted to. It is hereby ordered that such sum be allowed to the Farmers as the said Commissioners shall so certify. Further, the Farmers demand allowance of 324*l.* 5*s.* 1*d.* which they allege to have been received by the Vice Treasurer of Ireland (being their money) from several tenants and for casualties more than has been allowed or before craved; whereon Sir John Temple has reported that the truth of this demand has not been made out to him, but that if the Auditor General in Ireland shall certify that the payments into the Exchequer [for such rents] or for casualties during the said farm have amounted to more than has already been allowed [as above] then such overplus ought to be allowed: it is hereby ordered that the Vice Treasurer's accounts be inspected and thereupon allowance be made of any such overplus when certified. Further, the Farmers crave allowance for their loss by quit rents in charge on the 4th of Sept., 1675, which have since been discharged or lost or could not be levied because they plainly appeared to be doubly charged; which, according to Richard Thompson's certificate amount to 1,732*l.* *per an.* In this case the Treasury Lords, England, have ordered the Revenue Commissioners, Ireland, to enquire of such double charged rents and to certify (to the Barons of the Exchequer, Ireland) same and the loss thereby arising to the Farmers. The sum, when so certified, is hereby to be allowed to the Farmers in their account.

1688. Aug. 28.	Henry Guy to Mr. Blathwayte, enclosing the petition of the Proprietors of the Province of East New Jersey "at present in and about London" and the Customs' Commissioners' report thereon as follows. Please lay same before the Committee for [Trade and] Plantations.	*Out Letters (General)* XI, pp. 427–8.
	Appending: (*a*) said petition, undated, *ut supra*, p. 1995, petitioners desiring a fresh grant of the soil of said Province with such privileges and franchises as are requisite for the preserving of their adventures there and for the future improvement of the Province.	
	Appending: (*a*) (1) a note from the schedule of their requests. "It is necessary that the freedom of their ports, especially that of Perth-Amboy, be declared to be the same (in as full and ample manner) as Boston, New York or any other ports or places in the Government now united there."	
	(*a*) (2) Undated report [by the Attorney General] hereon. I have perused said petition and schedule and have compared the particular requests with Sir Edmund Andros' petition. As to the request relating to the ports, I find it not consistent with a power granted to Sir Edmund Andros, who by his commission is empowered at his discretion to declare what places shall be free ports and to limit the number thereof. But as petitioners are only to have the said town of Perth-Amboy so declared it will be no great repugnancy.

	(*a*) (4) Report, dated July 17 last, from the Customs Commissioners to the Treasury Lords on this matter of Perth-Amboy. We have nothing to object to making Perth-Amboy a lawful port or place for the landing and shipping of goods provided it be under the same regulation and liable to all manner of duties now or hereafter payable in New York: and if there be in the grant a clause of revocation in case the King so think fit.

Aug. 28.	Henry Guy to the Attorney General, enclosing a paper relating to a lease to the Countess of Peterborough *et al.* in trust for the Countess of Anglesea of all houses derelict, lands, tenements and waste grounds in cos. Middlesex, Kent, Southampton, Norfolk and Suffolk. You are to report whether or not this patent is forfeited.	*Out Letters* (*General*) **XI**, pp. 430-1.
	Appending : said paper, being a state of the said case. The said lease was granted 1661, Aug. 21, to Elizabeth, Countess of Peterborough, John, Visct. Mordaunt, George Howard and Thomas Manby in trust for the Countess of Anglesea. In 1664, June 22, another lease was granted to the same persons (save that Sir James Altham replaced T. Manby) of premises as above in trust as above for 31 years : in the first patent a reserve rent of 5*l.* *per an.*, in the second the rent is 10*l.* *per an.* : a covenant to enrol within six months ; to account for all compositions and to return an annual account into the Exchequer ; all rents above 8,000*l.* *per an.* to be returned into the Exchequer without fraud. This lease has lain dormant the last 24 years and is quite given over by the grantees and has never been assigned by them. No rent has ever been paid ; no enrolment ; no account ever returned, though their compositions were many. " It is certain [that] had the lessees pursued that grant given them by his late Majesty it had not only paid them the 8,000*l.* *per an.* but would have brought into the Treasury or Exchequer about 100,000*l.* *per an.* more." The King has granted a commission [of inquiry] to Lady North and Grey for all the derelict lands in Kent and Essex and a true certificate of the return thereof has been delivered into the Treasury. [Hereupon] Lady Elizabeth Hatcher and Mr. Blunt do trump up the above old dormant lease in bar of Lady North and Lady Grey. The King will thereby be defrauded as the Crown has been these 24 years. To show that this dormant lease is void, no less than five grants have passed for part of the premises therein : viz. that to the Earl of St. Albans (now in the possession of Lord Dover) ; that to the Earl of Leicester ; that to Mr. Chiffins ; that to the Earl of Clarendon ; that to Mr. Marriott : to all which no resistance or caveat was ever entered save against the Earl of Clarendon's and that was withdrawn.

Aug. 29.	Two money orders for 500*l.* each to Henry Guy [for secret service, without account], to be issued on the 20,000*l.* privy seal dormant of July 20 last; as by two separate royal sign manuals dated the 27th inst. and two money warrants of same date thereon. 	Same to same. In your report of the 22nd inst. to the Treasury Lords on the petition of Samuel Eyre and John Bowles you certify that all earthenwares were formerly imported without any interruption and that you are credibly informed that Delft red wares or counterfeit China wares, mentioned in their petition, are not made by any of the manufacturers of this kingdom and therefore can be no prejudice to the manufactures of this kingdom; and that gally tiles are made to very little perfection in England and are and may be (notwithstanding the strictest construction of the law) imported for private use, which does in great measure supply the consumption; and that you see no cause why there may not be a general liberty of importing these commodities on payment of Custom. You are hereby to permit petitioners to import, on payment of Custom, such of the said wares as they have now to bring in. And if any other person or persons desire the like liberty to import such commodities you are hereby to permit them.	*Ibid*, pp. 431–2.

The publication [of this order] is humbly desired because the Attorney General declares he cannot make a record of it till next term, and until the record or publication be made merchants may conclude that the permit in this case was of right "and from thence some have been encouraged lately to import French molasses into several ports, particularly at the port of Liverpool."	
Sept. 3.	Royal warrant, dated Windsor Castle, to the Contractors for the Coinage and Pre-emption of tin and for the sole privilege of making pence, halfpence and farthings [of tin] to forthwith proceed to coin such pence, half pence and farthings of tin in the form of the farthing pattern which they have presented to the King: viz. on the one side the King on horseback with the inscription *Jacobus secundus Dei gra Magn Brit. Fran. et Hibernie Rex* etc. and on the reverse the arms of England, Scotland, France and Ireland with this inscription *val.* 24 *parl. Real. Hispan.*: the King having approved the said pattern. A remedy allowance of the weight of two farthings per *lb.* weight is to be made: and they are hereby to utter and vend the same according to the limitations and directions prescribed in their articles with the King which are inserted or intended to be inserted in their contract passing under the great seal.	*King's Warrant Book* XIII, p. 87.
	Same to the Attorney or Solicitor General for a great seal to erect an office of inspection, examination and control of the abovesaid tin farm, and to grant the said office to Charles Godolphin, esq.: to be executed by himself or deputy, during pleasure: with the salary of 500*l. per an.* for himself and his clerks, payable half-yearly from June 24 last out of the profits of the premises: he to observe the directions of the Treasury Lords herein.	*Ibid*, pp. 88–9.
	Same to the Clerk of the Signet for a privy seal to discharge Dame Elizabeth Monings, her heirs, lands etc. and the heirs, lands etc. of her late husband, Sir Thomas Monings, bart., from all arrears up to Sept. 29 last of the rent of 10*l. per an.* reserved to the Crown under the patent of 1674, Oct. 23, which granted to the said Sir Thomas the office of water bailiff of the Severn for 31 years; his widow having represented that he died soon after the passing said grant and neither he in his lifetime nor she since have had any benefit thereof. The growing rent from Sept. 29 last is nevertheless to be still payable to the Crown for the remainder of the term: which she hereby covenants to do.	*Ibid*, pp. 89–90.

	Royal warrant, dated "at our Court at Whitehall," to the Lord Deputy of Ireland. Sir James Shaen and partners, late Farmers of the Revenue of Ireland, have desired allowance of 1,753*l.* 7*s.* 11¾*d.* (in addition to the items of allowance as conceded by the royal warrant of Aug. 20 last, *supra*, pp. 2045–8), which sum they allege they paid in part of several assignments not yet fully satisfied, as by an account thereof by John Stone, one of their officers. You are to examine said account as enclosed [missing], and if just you are to allow same in said Farmers' account. They also crave 100*l.* as paid by them to Sir John Hayes, an officer on the establishment, viz. for half a year's salary to 1677, Sept. 29; and 100*l.* to same for the like to 1678, Sept. 29, and 100*l.* paid to the Earl of Longford upon an assignment in the hands of John Price. If these sums were payable by the [Irish] establishment, you are to allow them. According to an account by Richard Thompson, an officer of the King's quit rents in Ireland, several quit rents, amounting to 1,088*l.* 11*s.* 11*d. per an.*, were remitted by Charles II and the Exchequer Court, Ireland, allowed said Farmers defalcations for 6½ years thereon to 1682, Easter. In addition several quit rents were similarly remitted after 1675, Sept. 4, which within the said Farmers' term would amount to 4,920*l.* 15*s.* 8¾*d.*; which with 544*l.* 5*s.* 11½*d.* for half a year to 1682, Michaelmas, on the said 1,088*l.* 11*s.* 11*d.* quit rents, makes 5,465*l.* 1*s.* 8¼*d.* The Auditor General of Ireland is to examine this item and if true you are to allow it. Further, the said Farmers upon their treaty with Charles II for a new contract for farm of the revenues in Ireland and Tangier (which contract was never perfected) did advance several sums which were sent to Tangier and were under the charge of Benedict Thistlethwayte, who afterwards died in that garrison. William Hewer, Treasurer for	*Out Letters* (*Ireland*) V, pp. 152–4.

Charles Collyer, Hewer's deputies in Tangier, being on account of four months' pay to that garrison. And by warrant of 1683, Sept. 24, from Lord Dartmouth (who went to demolish that garrison) Hewer received from said Thistlethwayte's widow 13,478 pieces of Eight (or 3,032*l.* 13*s.* 3*d.* sterling), being money remitted to Thistlethwayte by said Farmers to be issued out as the Governor of Tangier should direct for redemption of captives. Both these sums are charged in Hewer's accounts. Also Thistlethwayte paid 1,000 pieces of Eight or 225*l.*, by order of the Governor of Tangier, for the redemption of five English captives and did also advance 1,536*l.* 10*s.* 5*d.* to several officers of the said garrison, as by a list thereof presented to the Treasury Lords; which sum is directed to be deducted out of the pay of said officers. You are hereby to allow these four items, amounting to 16,494*l.* 3*s.* 8*d.* Further, the said Farmers crave 1,652*l.* for arrears of quit rents of plus and undisposed lands on which *scire facias* issued, but the Court hath delayed judgment therein. You are to direct the Barons [of the Exchequer, Ireland] to proceed to judgment therein. Further, the said Farmers allege that several sheriffs within the time of the said farm have not accounted and it does not yet appear but that, when passed, their accounts may produce some effects for the Farmers. The Farmers are to have the aid of the Exchequer in recovering any such effects and Exchequer process is to issue to compel the sheriffs to account.	
Nov. 13.	The Treasury Lords to the Earl of Tyrconnel [Lord Deputy of Ireland]. We received yours of Sept. 22 last with the papers therein enclosed concerning the vessels arrived in Ireland with wool pretended to be for France from Scotland and for Plymouth from the Isle of Man, which wool you stayed until bond be given for landing it in some port of England. We approve hereof; and as no wool grows in the northern parts of Ireland we think it proper that you give order that no wool should upon any account be licensed to be shipped or transported from any the ports in those parts.	*Out Letters* (*Ireland*) V, p. 155.

	Report to the King from the Treasury Lords on the petition of Maximilian Vanderburgh, merchant of Amsterdam, petitioner setting forth the great advantages which the manufactury of plush and velvet of all colours would afford to the kingdom and the revenue, both for materials thereto appertaining and also for the subsistence of innumerable persons therein, who would be sufficient to furnish other countries with the said commodities as well as to supply the King's subjects; and therefore offering to transport himself and family and wealth to the value of 10,000*l.* into England "if protected and encouraged by your Majesty"; that Sir James Ward, merchant of London, one of petitioner's dealers and correspondent in the said merchandise of plush and velvet for many years could testify as to petitioner's experience and knowledge in the said manufacture and as to the credit both he and his predecessors always had in the city of Amsterdam, of which Mr. Dowdall, a clergyman well known to the Queen, was eyewitness; wherefore petitioner prays a licence to establish said manufacture in and about the city of London, with a free house for his workmen, and for leave to transport 100 pieces of velvet, Customs free, along with his household goods. We have referred said petition to the Customs Commissioners, who have reported Oct. 22 last thereon that they have nothing to object to the encouragement desired for introducing the manufacture provided petitioner give security at the importation to pay the Customs on said 100 pieces in case he shall not to satisfaction establish the said manufacture within 18 months of their importation. We agree with this report, but as to petitioner's request for a free house for his workmen we cannot advise your Majesty to be at the charge of such a house, which we conceive ought to be provided at his own charge.	*Warrants not Relating to Money* XII, p. 372.

The auditor will make you the same allowance for your expenses as was made to your predecessor, Mr. Benjamin Bonwick. But before entering on the said collection you are to give such security as shall be approved by Sir John Parsons and Richard Graham of Clifford's Inn.	*Warrants not Relating to Money* XII, p. 375.
	Treasury warrant to Auditor Shales. Send us a particular of the abovesaid manor with all its members and appurtenances.	*Ibid.*
	Treasury reference afresh to the Revenue Commissioners, Ireland, of Edward Corker's petition, *ut supra*, p. 1890, with their report thereon. They are to report what sum they think fit to allow to petitioner for his services.	*Out Letters* (*Ireland*) V, p. 155.
	The Treasury Lords to said Revenue Commissioners, Ireland. The late Farmers of the Revenue of Ireland have had several hearings before us concerning their accounts. They claim allowance *inter al.* of 1,500*l.* for Customs and Excise of goods imported before 1682, Dec. 25, when their farm ended, the duties on same being paid after that date. Sir John Temple, Solicitor General of Ireland, has reported that duties so paid should be allowed. You are to certify the Barons of the Exchequer, Ireland, what is the actual sum so paid and allowable on this head. In the Earl of Clarendon's state of their account the said Farmers are allowed 3,285*l.* 7*s.* 0*d.* for dissolved custodiums (of which they consented to satisfy the rents) as certified by Mr. Thompson and they likewise demand allowance of 7,330*l.* 12*s.* 8*d.* for other custodiums dissolved whereof they refused to satisfy the growing rents to the King and which were dissolved by reason of such refusal. It is said Temple's opinion that by such dissolving thereof the Farmers were hindered from receiving the arrears of rent due to them thereout and that they ought to have allowance for same on assigning to the King such arrears or else to have liberty to levy said arrears out of said lands. On debate hereof we prefer the former alternative. You are therefore to enquire what arrears do so justly remain due to said Farmers from the lands of which the custodiums were so dissolved; and to certify same to us so that we may direct an allowance on this head when said arrears are so assigned to the King. They also crave allowance for loss by quit rents in charge 1675, Sept. 4, but since discharged or lost; which Richard Thompson certifies to be	*Ibid*, pp. 155–8.

1688.	1,732*l.* *per an.* You are to enquire hereof and certify the Barons of the Exchequer, Ireland, who will allow what sum you certify for such loss. In his said account the Earl of Clarendon allowed the Farmers 1,302*l.* 1*s.* 1¾*d.* for quit rents respited by the Exchequer Court, Ireland, and they now demand a further 3,566*l.* 19*s.* 0*d.* for same. Sir John Temple reports that this claim is not made out, but if made out it should be allowed. You are to enquire as to this and certify us. The Farmers also demand 10,000*l.* for loss by an embargo whereby all ships were, as they allege, hindered from importing goods into or exporting goods out of Ireland for three months, April, May and June. Sir John Temple thinks some allowance should be made. You are to enquire as to the amount and certify us, taking the average of the preceding year's Customs and Excise. They also demand 10,000*l.* pretended to be lost by an Act of State commanding Roman Catholics to remove out of the Corporations in Ireland in the latter end of 1678, which lessened the Customs and Excise of the succeeding year. You are to send us a comparison of the yield of said duties in said year and in the preceding year. They also demand 15,000*l.* for loss by the Act prohibiting the import of cattle from Ireland into England. Sir J. Temple reports that this prohibition was in force when they took the farm ; but the Act expired some years after and a new Act passed : for which latter they ought to have allowance if damaged thereby. You are to report to us whether the Customs of beef, pork, mutton, hides and tallow exported after said later Act fell short of the exports in the then preceding year. They also demand 1,000*l.* for loss from the burning of the towns of Navan and Birr. You are to estimate and report to us what loss arose to them thereby : as such allowance is, in Sir J. Temple's opinion, due to them under their contract.

	Henry Guy to Sir Christopher Wren, enclosing a memorial from Sir Robert Howard, Auditor of the Receipt and John Low and Peter Leneve the two Deputy Chamberlains of the Receipt, concerning the Treasury [of the Receipt] in St. Margarets Lane, Westminster, wherein his Majesty's records lie. You are to view said Treasury and do therein what you think necessary. *Appending :* said memorial, dated Nov. 21 inst. The place usually assigned for keeping the records in our custody in the Palace Yard, Westminster, has been greatly damaged by Mr. Doughty's buildings adjoining thereto, he having made a door into the leads of the said place and a garden thereon with a house of office, for the making and building whereof he hath brought much earth and rubbish ; to all which he hath no right ; and by reason thereof the roof of the said place is much damaged and the rains continually fall in upon the records to the great prejudice and hazard of destroying them ; which must prove a very great loss as well to his Majesty as his subjects if not speedily prevented. We therefore desire that Sir Christopher Wren may stop up said door and may regulate what he finds amiss about said place.	*Out Letters* (*General*) XI, p. 458.

Nov. 11.	Money warrant for 500*l.* to Hy., Earl of Peterborough, for half a year to 1687, Lady day, on his pension.	*Money Book* VIII, p. 431.
1687–8.		
Jan. 28.	H. Hordesnell to the Treasury Lords, dated from Bermuda; marked "received 22 May, 1688." My last letter of the 19th inst. by way of Nevis was in haste, I being but newly arrived. I herewith enclose another copy [missing] of the account which I received from the Governor and his son. Some small sloops have since arrived [at or from the Hispaniola wreck] but ineffectual, Sir John Narbrough being there before them. I find it impossible ever to obtain all his Majesty's dues of what is brought in, by reason that Sir Robert Robinson took only a tenth (besides what he exacted for himself), the commanders and masters [of the vessels] believing they had [thereby] fully paid his Majesty's dues [and therefore] shared the rest amongst themselves and the seamen. So that the money is dispersed by their expenses and buying of necessaries for their wives and children	*Out Letters* (*Plantations Auditor*) I, pp. 305–6.

1687-8.	all over the country and now [lies] by way of trade in the hands of those that were never concerned in the getting of it. I have examined several of them and this is all the account I can get as yet from them. I also enclose an abstract out of the account so that you may see how much his Majesty is defrauded. I will not leave a stone unturned to find out the truth. Here are 12 brass or copper guns which Sir Robert has taken in part of the King's tenths [of the wreck money], one or more of them broken at the muzzle and some others I fear not serviceable. I am in dispute about them, they being [previously] wholly the king's and not to be allowed for. Every day I have some or other in examination, but am at some charge in employing a stranger as messenger to summon them, none of the inhabitants being to be trusted (of which I have had experience). I have met only one whom I can have any belief of being just, one Robinson, a Quaker, who would not give Sir Robert his tenths nor be forced (unless he would seize all) to give him as others did, but gave security to pay his Majesty's due. He has now paid on board the *Swan* 400*l.* (according to the rate of money here) as a full moiety of what he brought, and this he did freely and cheerfully, nor would he break bulk till I sent for him: and as yet I can find no one who can charge him more, only one whom Sir Robert examined, who I sent for, but he refuseth as yet to appear. This poor Quaker is hated by all the rest for his being so honest. Mr. Constable has discharged three or four [ship-masters] and given a receipt that he has taken the King's dues, but never mentions how much, only 10*l.* of one Middleton. The masters will not tell: so that I find cause to believe a combination against his Majesty's profit, it being here a maxim that a man can never get an estate by being honest. Capt. Frowde assists me daily to the utmost and sees what I relate, but knows not how to help it. Provisions are at this time very dear and rather dearer than at London: and want of trade will quickly ruin the place. "If your Lordships should think fit to encourage the inhabitants by granting them a free trade with their own vessels both to England and all other his Majesty's Plantations it would much encourage them and increase his Majesty's Customs." Here is very little of law matters of concern (except Mr. Smailes, whom I found at liberty), most others being brabbling and quarrelsome matters not worth the trouble of a judge or his Majesty's charge; and without a considerable salary he is not able to support himself with due respect. After one Assizes, which will bo in the beginning of March, I question not but to put them in a method of ending all their controversies among themselves and [so am ready] to return when you shall direct me. "Atherly declares that the tunn and half of silver Capt. Phipps took from him at the wreck. Phipps declared it was for his Majesty's particular duty, therefore should not be shared with the other adventurers: upon which Atherly refuseth to pay any more than his tenths; and if that had not been paid thinks he ought not to have paid it, he hath had great losses, and that Sir William

Feb. 1.	Report to the Treasury Lords by William Blathwayt, dated Whitehall, on the petition of Col. Edward Powell, *ut supra*, p. 1730. I know well that petitioner has been for above six years past at several times Deputy Governor of Montserrat and Antigua and that for the first years he had presents of sugar from the Assembly for his subsistence in that government, there never having been any allowance from the King made towards it [such subsistence]. The instructions of Charles II to Sir William Stapleton, dated 1683, May 7, directed that no money or value of money should be granted by any Assembly to any Governor or Deputy Governor which should not be granted to his Majesty for the use of such Governor or Deputy. The Assembly of those islands did, without any good reason, put a stop to their usual presents: so that petitioner, having lived at his own charge, may have contracted debts, all necessaries for living being very dear in those parts. Petitioner's pretences and former services are so well known to his Majesty that he has for some years past had an Army pension of 4*s.* per diem. *Prefixing:* note of said petition and of the order of reference thereon, *ut supra.*	*Out Letters* (*Plantations Auditor*) I, p. 283.
Feb. 20.	Treasury warrant dormant to Sir William Godolphin, kt., Auditor of Wales, and to the Receiver of Crown Revenues for South Wales to pay and allow 80*l.* *per an.* to Charles, Duke of Somerset, and the arrears thereon, for a rent resolute out of the manor of Tallaugharne [Tal Laugharne] and other manors in co. Carmarthen, it being certified by Robert Humfreys, gent., who acts for said Godolphin, that same is payable to the Duke in right of his Duchess.	*Money Book* VIII, p. 385.
	Same to Tho. Northmore, undersheriff of co. Devon in 1685, to repay to Edward Ange the several sums as follows levied by you on James Row and Henry Tolcher of Totnes, co. Devon, on account of Recusancy in April and May, 1685, in order to the repayment of said sums to said Rowe and Tolcher according to the King's pleasure, viz.: 20*l.* 5*s.* 5*d.* levied on said Rowe and 20*l.* 16*s.* 8*d.* on said Tolcher, no part whereof has been paid into the Exchequer, the sheriff not having charged himself therewith; as appears by the certificate of the Comptroller of the Pipe.	*Ibid*, p. 391.
Feb. 29.	The Treasury Lords to the Lord Deputy of Ireland to report on the petition (referred from the King to the Treasury Lords) of Capt. Owen Macarty for the place of searcher of Customs in Dublin port.	*Out Letters* (*Ireland*) **V**, p. 101.
Mar. 21.	Letter to the Treasury Lords from Col. Edwyn Stede, dated Barbados ("received 1688, May 28"). I have received your commands of Nov. 24 last with the account of the casual revenue received by me here. For my zeal and services I desire the King's favour and allowance of 10 *per cent* [on said receipts]. I also desire your authorisation to make some allowance to such as have given me information of escheated and concealed estates,	*Out Letters* (*Plantations Auditor*) I, pp. 296–9.

1687–8.	by which I have made recovery thereof. This will be an encouragement to them, which for want of it are grown cold; "I having promised them some reward, though the qt. [quantity] was humbly submitted to your Lordships' good pleasure." I also pray an allowance of fees of 5 *per cent* to the executors of Mr. William Chester, his Majesty's late Attorney General here, for his services as King's counsel in all the recoveries I made; he having made me debtor for the same, and his executors owing me money, which they refuse to pay. This allowance is according to the establishment of fees made by Sir Rich. Dutton and his then Council "when the Court of Exchequer was by him erected and established here," which establishment was confirmed by Charles II: but afterwards, conceiving that 5 *per cent* was too little for the Attorney General's fees, Sir Richard allowed Attorney General Seawell 10 *per cent*; which Mr. Chester also expected from me. The present Attorney General hopes for this allowance to be continued to him. I will be frugal in other charges and expenses, but necessary accommodation and entertainment for the Barons, jurors etc. cannot be avoided; they coming far and having no other allowance than diet. To save such charge the Court is from time to time adjourned by one of the Barons till there be some quantity of business. I am trying to get good bills to remit to Henry Guy the balance of my account, as you order; but they are very scarce and dear. I am in treaty for a good bill for 1,000*l.*, but cannot get it under 12½ *per cent*; for so small is our crop and so few good bills by reason thereof that none whose bills will be punctually paid ask less: but I will try others for a little time, otherwise will accept this. At present I send Mr. Guy a bill for 300*l.* drawn on the Navy Commissioners by the purser of the *Mary Rose*, whom, by order, I furnished with that sum at several times for said ship's use, by which supply 10 *per cent* at least was saved to the King in return of his [Majesty's] money. I have also returned Mr. Blathwayt a year's salary and will make a full return of the balance of my account with all diligence. As to the ships arrived here from the wreck near Hispaniola with their treasure, they are four in number; one from Bermudas. I enclose a particular account of the treasure imported in this latter ship. The King's moiety thereof shall be disposed of as you shall direct, but the owners and importers hope to have it restored to them, pretending they were not concerned in taking it from the wreck, but bought it in Bermudas from those that imported it there from the wreck and was paid them for debts owing to them there and for goods sold; all which they intend to lay before the King. They have brought a certificate in general terms from Mr. Trott, Receiver of the King's dues and duties in Bermudas, that this silver was there paid for, "though up n examination I found at most it had [at Bermudas] paid but tenths [to the King], if that, for which reason I stopped the moiety." I also enclose an account of the like treasure imported in the *Raven*, for part of which Mr. Constable (his Majesty's Commissioner for that purpose) received the King's moiety. For the rest of the

1687–8.	silver which I found in the ship I took the King's moiety; and for the coined money or pieces of eight, which the owners pretend to be the produce of meat and drink sold to the people at the wreck, I have taken security for the King's moiety if not discharged by the King's order. The next vessel is a sloop that imported 500–600*l.* sterling from the wreck, which was divided at sea among the sailors and owners, each one being sharers and not on wages. This sloop went hence in consort with a pink called the *Elizabeth*, Thomas Baker commander, who was set out from London to the wreck and touched here to get divers. When I demanded the King's moiety of what they imported they produced the King's orders requiring that none of the concerns of said Capt. Baker should be meddled with or sued for here, his owners having given the King good security in London for the King's share. By the account I enclose it appears that said John [*sic*] Baker and this sloop took up 800*lb.* weight of silver, and thereof the sloop had for their share what money they imported to this island. The fourth and last vessel is a sloop which was put off from the wreck by Sir John Narborough and had only got about 500–600*l.* sterling, which before they arrived here was divided into small shares among the owners, sailors and divers, who reserved a tenth only for the King. On my demanding the moiety "he" [? the captain or each sharer] refuses to pay for more than his own share and therefore I must sue him. I will do my best to recover it. I have not, myself, been concerned in any vessel sent to the wreck till about Sir John Narborough's arrival, "when I was prevailed with to be concerned about 100*l.* in a cargo of goods to be sold amongst the people [fishing in the vicinity] of the wreck; but Sir John putting them all from thence and not suffering them to work there, I have never had the least account what is become of my little concern, but fear she is fallen into the hands of the Biscayers, who are by the King of Spain employed in those American parts to suppress pirates and unlawful traders in their ports, who spoil and destroy the Englishmen more than any other or former pirates, for wherever they can take the English either on the high sea or elsewhere they confiscate the goods and kill all the men. I am informed these Biscayers have taken many sloops belonging to the Leeward Islands in sight of them and we fear some of [the] vessels that have been long wanting are fallen into their hands." I have no account of what Sir John Narbrough doth at the wreck, nor what is become of my Lord Mordaunt and his Dutch frigates since he went from St. Kitts, where he touched. "Here is much discourse of a new silver wreck of great value found on the coast of Florida by some people of Jamaica." But we have no certainty of it.

1688. April 30.	Col. Hender Molesworth to the Treasury Lords, dated from Jamaica. I wrote you the 28th current that I had shipped you on board the *Prudence*, Capt. Joseph Knapman commander, for London 10 chests of plate or pieces of Eight which I had received for the King's tenths out of the sloops that arrived here from the [*Hispaniola*] wreck. I also therein sent you one of the bills of lading. On the 28th current Mr. William Constable with Sir Richard Derham and others, by virtue of a warrant from the Duke of Albemarle, went on board the said ship with a deputy marshal, broke open the bread room door where the said chests were laid and seized them and forcibly carried them away, Mr. Constable delivering to the commander that bill of lading which he had from me (which I expected he would send to you) with his discharge on it. I enclose you a copy [missing] of the Duke of Albemarle's said warrants, and of the captain's protest. Constable's action is not qualified [logally justified] by the copy of the power he gave me to consider when he demanded the said silver. In his warrant the Duke recites the King's order of July 30, which I never saw, and conclude to be the original warrant upon [which] the order of Aug. 4 (of which a copy was delivered me) was grounded, "which is generally more extensive than the warrant itself and more fully explaineth the same." If Constable had found the warrant fuller and more to his purpose than the order he would have sooner shewn it me. I therefore still think the seizure very irregular and illegal. It is also a hardship to me that after the Duke had forced me to give so vast a security for answering this money to the King he should thus seize it out of the ship in which I designed to accompany it.	*Out Letters* (*Plantations Auditor*) I, pp. 307–8

July 23.	Treasury warrant to the Customs Commissioners to deliver several quantities of molasses to Giles Biggs and Company, except one puncheon, which is to be detained. But effectual care is first to be taken that the said persons submit to such rules and methods as the Attorney General shall propose for settling and determining the point in law for preventing the future importation of molasses from France. All by reason that it appears from the Customs Commissioners' reports of May 18 and June 22 last and July 16 inst. that they had several times heard the refiners of sugar in England and merchants trading in sugar and molasses, as [also] Giles Biggs and Company, concerning the parcel of molasses imported by said Biggs etc., which they ordered in Dec. and Jan. last from their factors in France and were shipped before the date of the Treasury warrant of April 9 last,	*Out Letters* (*Customs*) XI, pp. 179–80.

Wherefore the said Commissioners advise that petitioners have a writ of delivery for said molasses save for one puncheon to be detained and proceeded against, the condemnation whereof petitioners will not oppose: but the Commissioners further advise that submission be first made to rules to be made as above.	
Aug. 20.	Treasury warrant to Sergt. Sept. 28.	Same to Charles Duncombe, Cashier of the Hearthmoney, to pay and satisfy to him the four tallies for 5,000*l.* each, or 20,000*l.* in all, which were drawn on the Hearthmoney 10 Dec., 37 Car. II [*sic* for 1684], as in repayment of so much lent to the King 1684, Oct. 7.	*Ibid*, p. 70.
